MEMORANDUM FOR: Director of Medical Services

SUBJECT : Clinical-Administrative Organization

REFERENCE : My memorandum, dated 22 December 1969,  
subject as above

1. Pursuant to our discussion of the referent memorandum, and as you requested, another alternative reorganization of the clinical-administrative activities of the OMS is depicted in the attachment.

2. This alternative would bring the PA/OMS into the OMS command line rather than in his present advisory capacity, but would continue to provide for a direct relationship between D/MS and the chiefs of the OMS clinical elements. As Assistant Deputy for Clinical Activities but also as an integral part of the O/D/MS complex, he would have command prerogative but his activities would be as specified by the D/MS.
